The above should be expected of every adult and taught to every child and made the human law for all.
If harmers were punished we could have a wonderful world.

Freedom of speech and media safeguards freedom.
Our Constitution and Universal Declaration of Human Rights gives us many Freedoms.
Where they censor speech, information and books they will take away your freedom.

FREEDOM ISN'T FREE, MANY DIED FOR YOURS. We veterans remind you to: Be vigilant and be prepared to fight threats to your freedom. There are many here who are secretly against our way of life. Remember 9-11, Boston massacre, Detroit bomber, Mslm terrorists who nearly caused hundreds of deaths of children and Warren workers in 2026. And over 49,000 Mslm terror attacks since 9-11 worldwide and killing nearly 200 in USA.

And there are the greedy 1% who have excessive wealth dodge taxes, and Corporations who don't pay a living wage. We now have the resources to provide good clothing, food, housing, medical care and education to all citizens..

Before the first entry we acknowledge that there are many Heroes and Volunteers who declined to have their names put in this history because they choose to do good work anonymously. I will call these our Anonymous Heroes. Several of these have put in hundreds of hours doing good work in our community. We give them our thanks and gratitude for their wonderful works.

Thompson Max As someone who had seen an educational system working from the elementary right through to the top administrative post of Superintendent of the Van Dyke Public School System, Max Thompson was perhaps the most logical

person to see the value of a community college in his community and to successfully work for its establishment in 1954. For these and other accomplishments, the Greater Warren Chamber of Commerce honored Mr. Thompson in 1964 as Citizen of the Year. While he was apparently surprised at the dinner ceremony, those attending certainly were aware of the reasons for the honor being bestowed. They knew that he had served his nation in World War II in the U.S. Navy's medical services based in San Diego, California, was active in the Boy Scouts, Red Cross, Rotary Club, United Foundation and various educational associations and committees. At the time, he was the Superintendent of Van Dyke Schools, being appointed in 1950. He had been elevated from his position as Principal at Lincoln High School and overall had served the system for over 25 years. He branched out even further into the Warren community when he

became chairman of the City's Police and Fire Civil Service Commission and then was elected to the Board of Trustees of the Macomb County Community College. His early background included a stint of laying rail tracks for the Michigan Central which ran through his home town of Parma, attended Alma College, taught various sciences at Keego Harbor and Farmington (where he was a high school principal). He retired in 1967 and died in 1971 at 65 years of age. By Fred Gemmill

Tranchida James St Clement 1962 Deceased

Tranchida James was on the commission that developed Memorial Park

Tranchida Peter He was an attorney who served in Center Line City government for fourteen years. He started as a councilman in 1968 and became Mayor of Center Line from 1969-1981. It appears that he was well liked by all. As neighbors one street over I had had many dealings with him and the result was always positive. He was asked many years later and long after he had retired from being a mayor to write a reflection about the times. This is what he wrote. "It was my philosophy to continue and improve upon the somewhat unique services rendered by the Community. It was there, with those intentions, that many of the services were maintained and expanded upon during my years in office. These services obviously were desired by

the community at large, and the citizenry was willing to tax itself to provide for such things as sidewalk clearing and snow removal, twice per week rubbish collection, ambulance service, and numerous recreation and library functions, amongst other things. ...I have decided to talk about my feelings toward the Community and its people. My mother's family, the Buechels, were residents of the locale even prior to Center line's becoming a Village, and therefore, my sense of belonging, in relationship to the people of the Community, was and is extremely deep-rooted. There always seemed to be a certain uniqueness about Center Line, and although difficult to put into words, it involves the size of the Community, its geographical location, and more particularly, the attitude and spirit of the residents of the City. It has been apparent to me, from past to present, that there is a colloquial pride

and sense of belonging: pride in one's family, one's church, one's school, and pride of home ownership. I can, with warm recollection, recall, at public gatherings, church activities, 4th of July celebrations, or whatever, people taking the time to talk to each other, to know and to care about each other. There is a reunion atmosphere, for example, when the Lions Club holds its annual breakfast. As the pace of the world seems to quicken, and the events of the day preoccupy and usurp our time, the opportunities to gather and communicate and relate to each othe5 are indeed precious and unique. As there still exists that certain friendly, rural attitude. A part of these qualities, and the help of my fellow Council members, that allowed me to create an atmosphere in which our Community could persevere and overcome the problems that evolved during the years I held office. I

can recall our former Congressman Nedzi making that same observation when reflecting upon the success of our Urban Renewal Program. It is with these warm and wonderful memories that I wish the Community the very best in its future, and for the well-being of all its citizens. With warm regards Peter J Tranchida Former Mayor"

Turmel, Tom CLHS 1975

Turmel. Tom an outstanding Gardener who has labored at Warren Union Cemetery every year since about 1997 as a volunteer. He took weed covered grounds with very few trees and planted grass, added colorful trees, shrubs and flowers. Volunteer Tom Turmel is responsible for hundreds of beautiful plants, shrubs and trees at Warren Union Cemetery. He has transformed a weed infested eyesore into a place of beauty and respect. Tom Turmel of Warren has donated and installed as of 2024 over100 trees and shrubs. Many of these came from historic houses about to be demolished. For Example, the 9 Burning Bush shrubs were from the Homer Harwood estate. Before this time most of the cemetery was only grass with only the few big trees and the new Oak and Crab apple tree. One can see that he has transformed

the cemetery into a place of beauty. He has done all of this without pay.

Tom has been saving plants and parts of historic homes about to be demolished for many years. He revives the plants and replants them at Warren Union Cemetery and Haney's Restaurant and many other places.

He also pointed out to me in a recent conversation how Pat Halman worked long and hard and saved the Bunert School from being demolished then at the dedication Sue Keffer and Becky Hetchler took the credit they removed other memorials families had placed there. Some of us believe they did this because they could not get credit for placing those stones. Some were little bricks a historical researcher had placed on graves informing visitors of who was buried there because there was no

longer a marker there. But they had the power to call it a historical dispute and got away with it.

Tom recently told me of how the City of Warren sent in the blight buster team who caused much damage by chain sawing anything they just felt like without consideration of the aesthetics or especially of the health of the plants. They cut into historic trees and shrubs leaving them exposed to diseases and attacks. He spoke to the city council, and they ordered money out of the Dorothy Cumings fund to repair nearly $2,000 in damages done by the bight team mis-actions.

For nearly 30 years Tom Turmel has cared for Warren Union Cemetery and donated hundreds of plants, fertilizer and other supplies plus buying watering hoses. He pointed out that the city mowers recently carelessly ran over and shredded his hoses which he bought with his own money. I was also informed by

others that the city now wants this volunteer to pay that he be bonded to be allowed to work in the cemetery. This has now put an end to his volunteer gardening

Tom and another person made a historical record of the interior of Busch School just before it was torn down. He has taken many pictures over the years including the interior of Busch school and the Pewabic tiles there. [Mary Chase Perry Stratton, a Detroit native and ceramic artist, is credited with creating the Pewabic ceramic tile technique in 1903. The term "Pewabic" comes from the Chippewa Indian word wabic, which means "metal," or bewabic, which means "iron or steel".]

Tom has been involved in many historical projects and causes. He is a great historian and has many unpublished historic pictures. I am proud of him and his many good works.

Just look at Haney's Restaurant over many years to see the splendid work of this master gardener. Plus he is a great guy to know.
